Preparing for Revalidation

FREE Workshops for Nurses Working for Smaller Providers Across Social and Primary Care

Supported by the Department of Health

Are you one of a significant number of registered nurses working for a smaller social or primary care provider. Perhaps you are part of a very small team or you may be working on your own. The new NMC revalidation requirements will impact on the way every nurse demonstrates their competence to practice and renew their registration every three years. FoNS is offering a series of **FREE** informative and practical workshops to help nurses prepare for revalidation. The workshops are facilitated by FoNS and representatives from the NMC and will include:

- Outline what NMC revalidation is and how the changes will affect you
- Explain what you need to do to prepare for revalidation including:
 - Clarify the requirements for revalidation
 - Understanding the new NMC Code
 - The role of existing activities and systems such as appraisal
 - Signposting to useful resources
- Provide guidance and practical help with:
 - Writing reflective practice accounts and completing the reflective discussion form
 - Understanding the role of the confirmer and completing the confirmation form
 - Completion of other information to support revalidation
- Negotiating support with employers/organisations with both revalidation and appraisal

You can choose any one of six half day workshops and book by clicking on the web-link:

Workshop 1: 20th Jan 2016, Novotel London City South, London, 0900-1230
